Subject: Gratitude for Past Support and Request for Polidocanol Donation

Dear Mr. Leshtaev and Kreussler Pharmaceutical,

We would like to express our sincere gratitude for the generous support that Kreussler Pharmaceutical has compassionately provided to us in the past years. Your commitment to donating Polidocanol for our Veins clinics has had a profound impact and has been instrumental in helping us achieve our goals. Your latest donation in September helped us achieve not only a fall reduced mission in Honduras, but some of the excess allowed for the re-introduction of the same treatment in a mission in Guadalajara this month, January, 2024. We very much appreciate how you helped us to navigate the delivery via Canada.

HHPF's mission includes sponsoring international medical trips that integrate high-quality learning experiences for healthcare providers with the delivery of medical care to those in need. We pride ourselves on teaching healthcare professionals from across the globe various methods to economically treat debilitating health conditions. Our goal: improve healthcare, transform lives.

As we continue our efforts, we again find ourselves in need of medical supplies, specifically polidocanol. It is the life-changing medication that helps thousands of patients we treat, and it is the basis for teaching our techniques for physicians and technicians to take back for use in their own practices. We are again asking Kreussler Pharmaceutical for your donation to contribute to the success of our upcoming projects. We have planned a full service trip to three clinic locations in Honduras March 8-16. We plan to treat more than 1000 patients with venous disease and ulcer/wound care. We would love to be able to count on your donation to help us achieve this.

I am including a separate PDF with a set of photos from the past mission. Some demonstrate our physicians injecting, assessing and assisting patients. Others show the gratitude of the treatments and the joy of receiving some additional donated goods. We will of course share photos with you from our upcoming Veins treatment missions.

Once again, thank you for your past support, and we look forward to the possibility of a donation to help make a lasting impact.

With gratitude,

A handwritten signature in black ink that reads "K E Weeden". The letters are cursive and slightly slanted to the right.
